

Vacation Planning

You have decided to take your family of five to a country in Europe for a vacation. Where do you want to visit? What do you want to do? Choose from **England, France, Italy, Germany, or Switzerland**. You have **\$5,000** in your budget for this trip. Spend it wisely!

Budgeting a trip like this one will take some work. You will need to answer lots of questions. You will first decide where you are going and create a Destination Flyer

Part 1. You will Pick a Destination and create a Vacation flyer using Pages.

Flyer Requirements

1. Destination title must be BOLD and a minimum of size 35 font used.
2. Picture must be included in the flyer.
3. Picture caption should be included.
4. Destination description should be before or after picture but centered to page and at least 3 to 5 descriptive sentences used.
5. Description and caption should not exceed 18 point font or be less than 14 point font.
6. Type 'Created By: (Your Name)' in the lower right hand corner of your flyer.

Part 2: Budget your Trip's Transportation & Lodging:

Consider the following questions:

- Cost of flight.
- On-the-ground transportation: Euro Pass or car rental?
- What type of accommodations do you have: how many beds? what size beds? do you have a phone in your room? internet access, and is there a pool? Is breakfast provided and if so what type of breakfast? What other amenities are provided with your room? Should you stay in Hostels?
- Where will you eat? How much will it cost you? You have to eat at least twice a day! (Breakfast=\$??, Lunch=\$???, Dinner=\$???)
- Snacks?
- You will be visiting an attraction at least twice. What's the cost?
- **Plan the currency difference, also. The dollar verses the Euro.**

Using NeoOffice Spreadsheet, plan the budget of your trip.
